

Regarding the Diagram of Synoptic Relationships Chart, which used to be at this web address: It has been brought to my attention that, while Dr. Allan Barr's original copyright on this chart has expired, it was renewed by his son, James Barr, in 1995. I was not aware of this since my copy of the chart, on which this file had been based, was the much older one. The chart that used to be presented here was not 100% identical to the original Barr chart, but contained several changes based upon my own reading of the material and had been recreated by me for use in Synoptic studies.

I extend my sincere apologies to the current copyright holders for inadvertently violating their copyright on Professor Allan Bar's Diagram of Synoptic Relationships. Additionally, I implore any who may have downloaded a copy of this chart to not share it on the internet.
